Attend a volunteer management training session to learn about volunteer recruitment, retention and management. Make use of our [online resource kit](#).

Skills-Based Volunteer Matching Program

Skills-based volunteerism provides service based on functional business skills, experience, or expertise to benefit a nonprofit organization and/or its cause. Let BVU match your organization with a skilled volunteer with to help you in areas such as finance, graphic design, marketing, human resources and more!

Days of Service

We facilitate community service projects for large groups of business volunteers that complement team building, leadership development, and philanthropy initiatives while supporting the mission of the nonprofit host.

Mission

BVU brings the talents of local business professionals to nonprofit organizations seeking volunteers and board leadership. We help companies create and maintain productive community service programs that involve employees at all levels. In addition, we present training and learning seminars for business leaders on issues of corporate social responsibility and nonprofit board governance.

BVU's Volunteer Central serves as a community resource connecting motivated people and businesses to nonprofit organizations that will lead to stronger communities.
